STATUS

All built-in dimensions are coordinated editorial-prototype design values, not site measurements. Manufacturer dimensions are separately identified. Actual-site execution remains pending.

PRODUCT / USE ACCOUNTING

- PROD-001: ADVANCE Satin October Mist 1495 finish; provisional purchase basis.
- PROD-002: one Kenyon CW1202BBS picture light; verified envelope is shown.
- PROD-005: two polished-chrome 10.5 in candlestick holders; footprint pending.
- Three Hagen frames, one Small Burlwood jewelry box, and two porcelain plates are display-only placements.
- Belgian Flax Linen Sheer panel quantity is field-dependent; curtains are excluded from fabrication geometry.

FIELD VERIFICATION & SAFETY

- Confirm actual wall width/height/depth, adjacent trim, window and curtain conditions.
- Confirm wall flatness/plumb, floor level, substrate/studs, anchoring design, and baseboard/crown interfaces.
- Confirm junction box and electrical feed; picture-light installation requires qualified electrical review.
- Confirm curtain quantity and final candlestick footprint. Decorative placement does not prove site fit.
- This set is not a construction-permit, structural, or electrical package.

DIMENSION / EVIDENCE LEGEND

DIM-001 to DIM-009	Locked prototype design values or coordinated drafting dimensions.
DIM-MFR-001	Verified manufacturer product envelope; not a site condition.
FIELD VERIFY	Unknown actual-site conditions that must be confirmed before execution.
P-DA-01	Prototype drafting assumption used only to resolve the section convention.
